

Ref : KAYLON/GEAR/51

Sub : KAYLON SPUR GEAR FOR DRYER

Dear Sir,

We are glad to inform you that we have started manufacturing Gear out of **KAYLON (Cast Nylon)** in single piece construction apart from Plascon Segmented Spur Gear for Dryer out of UHMW (Ultra High Molecular Weight).

You are aware that our Plascon Gears are already working satisfactorily. But on the demand of the customers we have started manufacturing same in single piece construction out of KAYLON . The advantages and other details of KAYLON Gear are as follows :

1. Single Piece construction
2. Higher tensile strength
3. Noise reduction
4. Double sintered Ring to improve dimensional stability
5. Self lubricating
6. Higher service temperatures upto 100° C is possible

KAYLON Gears are running satisfactorily to the reputed mills due to above excellent properties and low coefficient of friction.

M/S Premier Paper Mills Ltd.
M/S Sri Bhawani Paper Mills
M/S Varindra Agro Chemicals
M/S V. G. Paper & Boards Ltd. and many others.

We are sure that you will also be fully satisfied with the qualitative working performance and durability of our KAYLON Gears.

We now request you to please expedite your enquiry for the above enable us to submit our competitive offer. In case you need any other query or information please feel free to mail us at info@polyrib.com or visit us at www.polyrib.com
