

Ref:KPPL/ASBESTOS/10

Sub : PLASCON an ultra high molecular weight high density polymer dewatering Elements for
Asbestos, Paper, Pulp & Board Industry

Dear Sir,

We are glad to introduce ourselves as the leading manufacturer of UHMW High Density Polymer with compression process. We are manufacturing above items and due to excellent performance and durability all of our products are running successfully.

For ensuring better performance under high speed synthetic wire we have developed Plascon Alloys namely Plascon-GF(Graphite) , Plascon-M (Molykote), Plascon-CERA (Cramics) , Plascon-GB (Glass Beed) , Plascon-Rider etc. These PLASCON alloys are recommended according to the speed and quality of wire in use. This PLASCON as well as its alloys having low co-efficient of friction.

Please note that following items are approved with many Asbestos applications and we are getting regular repeat orders for the same.

Suction Tray	Block	Skets for
Proximate Switch		
Round & Square Rod	Top for Felt Wash Tray	Conveyor Roller
Trolley Wheel	Impeller	
Sprocket		
Spur Gear	Wear Strips	Inserts etc.

For your ready reference we enclose herewith following circulars which are self explanatory .

1. PLASCON /WEAR STRIPS/05A - for Wear Resistance Strips
2. KPPL/SG/15 – Segmented Spur Gear for Dryer
3. KPPL/02/PAPER

We are sure that you too find the above items are quite suitable to your requirements and in turn we request you to favour us with your esteemed enquiries enable us to submit our most competitive quotation for the same.

We now request you to please expedite your enquiry for the above enable us to submit our competitive offer. In case you need any other query or information please feel free to mail us at info@polyrib.com or visit us at www.polyrib.com
