

REF: KPPL/GR/20

SUB: PLASCON GEAR

Dear Sirs,

At present Wooden Tanning Drum where used with C.I. Gear which are now out of order due to disadvantages of breakability, lubricating and less life.

We are introducing ourselves as a leading manufacturer of KBK Gear which is Substitute to Metallic and C.I. Gear. Our Gears are unbreakable and does not require lubrication. We can provide them in One FT Segment (10 or 12 Segment) or in four segment complete Gear which can be easily changed or replaced

Guides, Pinion & Sprockets

These Gear gives more life than C.I. Gears. It takes few minutes to replace Whereas C.I. Gear takes more than 3 to 4 hours which is not affordable now.

We can also fix Gear and take responsibility and guarantee of its working.

We now request you to expedite your valued enquiry of the above alongwith drawing per return mail enable us to submit our offer.

Thanking you,

For KBK Plascon Pvt Ltd
